Product Characteristics

Construction	
Backing	Transparent polypropylene cast film
Adhesive	Acrylic
Total Thickness	4 mil (nominal)
Performance	
Adhesion (oz/in) to stainless steel	3.0 – 6.0

The physical properties listed above are typical values and are not to be considered as specifications. Our suggestions for use are based on tests we believe to be reliable. However, the purchaser must determine the suitability of the product for their internal use. Main Tape assumes no liability for claims beyond those outlined within our Limited Warranty, which includes replacement value of Main Tape product proven defective. For full disclosure of the Limited Warranty, please contact your Main Tape representative.

Typical Uses - Excellent for transferring self adhesive signs, logos and vinyl lettering produced from cast or calendared CAD/CAM plotter films with matte or brilliant surfaces. Laminates smoothly to graphics with no film distortion and resists stretching during installation.
